

## Carterville Intersection

### **QUESTIONS FROM DISTRICT 4:**

What is being done or planned to be done with the intersection of Carterville Road and 1720 North? How soon will these plans be implemented? How will the plans improve safety at the intersection?

### **ANSWER FROM PUBLIC WORKS:**

The Carterville Road/1720 North intersection is one of the projects that has been identified in the Action Safety Plan as an area to be addressed. The Transportation and Mobility Advisory Committee (TMAC) is in the process of recommending project priorities from the Safety Action Plan to the City Council. Once the City Council sets the priority, the City will begin bringing projects forward to the City Council for consideration as part of the budget process.

### **HOW TO CONTACT THE CITY COUNCIL:**

Email all City Council members at – [council@provo.org](mailto:council@provo.org)

Contact individual City Council members – “Meet the Council” on the Provo City website.

Go to TMAC’s meetings – check Provo City Wide Calendar for dates, times, agendas.
