

# Trees along Carterville Road

## **From Chaz Addis, Urban Forester:**

“I just took a drive along Carterville Rd and it looks to me like the trees and shrubs have recently been pruned back. I’m not sure who took care of the area, but I do know open space areas are usually taken care of by our Parks department, so it may have been them. Please let me know if the neighborhood has any further questions.”

## **From Doug Robins, Parks & Rec Assistant Director:**

“James Cornaby led a group of volunteers that performed much tree work along Carterville Trail on the United Day of Service. Carterville Road is mostly within Orem City boundaries, so Parks & Recreation would not have been involved in clearing tree limbs from that street.”

## **From Sarah Asay, Carterville Neighborhood:**

“Trees have been trimmed.”
