

GENERAL ILLUSTRATION FOR CONSTRUCTING A GARDEN SHED

This 8 x 12 ft shed features a simple gable roof, double doors, and side and rear windows for natural lighting. With full-height walls and doors, there's ample room for storing large items or creating a comfortable work space. An optional wood ramp helps in moving lawn mowers and other heavy equipment.

The finish materials for the basic shed are asphalt roof shingles, plywood siding (T-111) and simple trim details. You can purchase prehung doors or build your own and purchase windows if desired.
